

DEVELOP A PYTHON SCRIPT

Date	08-11-2022
Team ID	PNT2022TMID49507
Project Name	Project - IOT based safety gadget for child safety monitoring and notification
Maximum Marks	4 Marks

SCRIPT:

```
a=33 b=200 if a>b:    print("a is  
greater than b") else:  
    print("b is greater than a")
```

The screenshot displays a Python IDE interface. The editor window shows a script with the following code:

```
a=33  
b=200  
if a>b:  
    print("a is greater than b")  
else:  
    print("b is greater than a")
```

The output console at the bottom shows the execution results:

```
C:\Users\HP\AppData\Local\Programs\Python\Python39\python.exe "C:\Users\HP\Desktop\PYTHON COURSE\main.py"  
b is greater than a  
Process finished with exit code 0
```

The IDE interface includes a top toolbar with icons for file operations, a left sidebar with a file explorer, and a bottom status bar with tabs for Version Control, Run, Python Packages, TODO, Python Console, Problems, Terminal, and Services.
